

A perspective view of a tube 18 dispensing a material 10 into a mold 12. The material 10 is shown as a continuous stream exiting the tube's nozzle and filling the mold cavity. The mold 12 is a U-shaped container with vertical walls, indicated by hatching. The tube 18 is angled downwards towards the mold.

A perspective view of a tube 18 dispensing a material 10 into a mold 12. The tube 18 is tilted downwards, and a stream of material 10 is being extruded from its nozzle. The material 10 is falling into a U-shaped mold 12, which is shown in cross-section with vertical hatching. The material 10 is forming a pool at the bottom of the mold.
